# WHAT IS COR ADVANTAGE?

---

## CHILD OBSERVATION RECORD

### WHAT IS COR ADVANTAGE?

Comprehensive view of child development

Captures growth through play and natural activities

Aligned with state standards in every U.S. state

Matches Common Core Standards for Kindergarten

Incorporates HighScope's Key Developmental Indicators (KDIs)

Provides detailed insights into individual child and whole classroom progress

Supports informed teaching and personal learning strategies

### WHY DO WE DO IT?

To build relationships with children to better understand their unique goals, strengths, and interests and development.

To build relationships with families and understand their goals and ideas. As well as share observations, curriculum knowledge and final reports. This helps families to see themselves as leaders in their child's education.

To adapt our environment such as; adding, changing or removing materials. As well as adapting your daily routine to meet specific needs or goals and helps you to prepare your environment for the day.

### WHO BENEFITS?

Students benefit by...

- Individualized scaffolding

Caregivers/families benefit by...

- Having access to their child's unique developmental record

Teachers benefit by...

- Using observations to create individualized lesson plans
- Tracking development of individual children and whole classroom
